MAXIMO CASTILLO TO BE TAKEN TO EL PASO

Hachita, N. M., Feb. 19.—Maximo Castillo, the captured Mexican bandit and those taken with him, will be placed in a separate coach and taken to El Paso by the train which arrives there at 2:02 o'clock this afternoon. It was planned at first to board a local train which would have reached that city this morning, but it was deemed wiser not to risk the night run on account of the numerous local stops. TRADE BOARDS KEEP COST OF LIVING UP IN AIR

Chicago, Duluth and Minneapolis Organizations Responsible for Grief of Proletariat, Alleged.

(By Leased Wire to Evening Herald.) Washington, Feb. 19.—Charges that the Chicago and Duluth boards of trade and the Minneapolis chamber of commerce compose a combination in restraint of trade in grain dealings and are responsible for high prices were filed in the houses today by Representative Mahanah, Republican, of Minnesota, with a resolution from Congressmen investigation.

Mahanah charged in his resolution that it was generally believed that the business of the Chicago board of trade and its operations were controlled by memberships owned by a few large operators, particularly Armour, Peasey, J. Rosenbaum, J. C. Shaffer and company, and Bartlett, Fraser and Carrington, and that acting in court with leading members of the Minneapolis board, they control most of the terminal elevator facilities and unlawfully control the price of wheat to the farmer and the country. The preamble of the resolution was a voluminous indictment of the three boards, beginning with a statement that to their activities might be charged the present high cost of living.

"The price of wheat to the farmers as well as the cost of flour to the consumer," said the resolution, "is largely controlled by the boards acting in combination."

It charges that the Chicago board controls the selling price of wheat; that the Minneapolis chamber controls the prices paid for wheat from day to day and that the Duluth board makes the price of wheat for the northwest.

The resolution asked for a select committee of seven members to investigate the charges and also the grading of wheat, operations in the bin, the selling of futures and other operations.

SEEKS INFORMATION ON IMMUNITY FOR NEW HAVEN

Washington, Feb. 19.—Senator Norris, Republican, of Nebraska, introduced a resolution to direct Attorney General McElroy to inform the Senate whether the department of justice is contemplating entering into any contract or agreement with officials of the New York, New Haven and Hartford for reorganization of the railroad or settlements of its financial difficulties. Consideration of the resolution was deferred until tomorrow on objection to immediate action by Senator Bankhead of Alabama.

The resolution would ask specific information of whether any agreement would contemplate giving immunity to any persons connected with New Haven transactions and whether such an agreement contemplates the surrender of any right for actions to recover money or damages "on account of the misappropriation of the money, funds or property of said company."

TELEGRAPH KING AND WIFE GET DIVORCED IN PARIS

Mutual Charges of Desertion Result in Legal Separation of Mr. and Mrs. Clarence H. Mackay.

HUSBAND RECEIVES CUSTODY OF CHILDREN

(By Leased Wire to Evening Herald.)

New York, Feb. 19.—The announcement today that Clarence H. Mackay, financier and president of the Postal Telegraph-Cable company, and Katherine Duer Mackay, his wife, had been granted a mutual divorce by the French courts on February 11, came as a surprise, not because it was unexpected, but because of the place and manner in which the decree was granted.

Mackay charged in his resolution that it was generally believed that the business of the Chicago board of trade and its operations were controlled by memberships owned by a few large operators, particularly Armour, Peasey, J. Rosenbaum, J. C. Shaffer and company, and Bartlett, Fraser and Carrington, and that acting in court with leading members of the Minneapolis board, they control most of the terminal elevator facilities and unlawfully control the price of wheat to the farmer and the country.
